M'CLAIN GOES TO JAIL FOR 3 YEARS

Walhonding Man Fined \$500 and Sentenced to One Year.

DENIES HAVING THREATENED GIRL

Judge Ashman Hands Out Stiff Penalty to Child's Betrayer.

Robert D. McClain was given a fine of \$500 and a sentence of 1 year in the workhouse Saturday morning by Judge Ashman in probate court, after McClain had pleaded guilty to the charge of contributing to the delinquency of Pearl McClain, the 15-year-old daughter of the man's half-brother. The sentence will keep McClain in the Canton workhouse for nearly three years.

McClain told his side of the shameful story to Judge Ashman Saturday morning. His seemed to be about the same as the story told the judge by the girl and her parents at the time McClain was arrested by Probation Officer Brunskill.

McClain vehemently denied that he had ever threatened the girl with cutting off her head or killing her if he told of her relations with him. He said the story in that particular untrue. He made no hesitation, ever, in making a full breast of conduct with the McClain girl—

McClain said that the girl was or less responsible for the relations between them. He said that never objected to his attentions, spite of allegations made to the contrary.

The girl will be held before the court Saturday afternoon and given a full hearing by Judge Ashman. She will be made to understand just what she is to act in the future. As the girl is not known to have been associated with any other men, Judge Ashman, may not send her away. The delicate health of the mother, who recently underwent an operation for cancer, may persuade the judge to show the girl the pity of the court and she will be permitted to remain at home as long as she conducts herself as she should. It is not probable that she will be sent to the industrial school.

Judge Ashman's disposition of the many cases of this character within the last few months has gained county-wide endorsement. He is determined to take care of the defenseless young girls of the county as he has already demonstrated by giving the men brought before him the limit of the law. His sentence of McClain half the maximum fine and the minimum workhouse sentence called for by the law.

BRARY WILL OBSERVE FAIR

at Sum Cleared By Excursion to Canton Park

The public library will be closed Thursday and Friday of the county fair to enable the librarians to go out and take a look at the biggest and best fair, feed the animals, meet the people, and partake of the festive corn ball.

It was decided at a meeting of the board Friday evening. The board checked up the recent excursion and found that the library received to the extent of \$312.22, which will be expended for new books.

A committee composed of James R. Johnston and Mrs. McCurdy was appointed to submit a list of new books or to appoint a committee for that purpose. A much money will be expended as last for new books, as excursion was not as productive as one-half. The book purchase will be made without delay.

Legal Delegates Hit by Article

Myers and Staats Disturbed over Correspondent's Statement in Anti-Saloon League's Organ — Dry Vote Split?

Joe L. Myers and L. N. Staats, anti-saloon candidates for delegate to the constitutional convention are both considerably disturbed by the article which appeared in the American Issue last week, the anti-saloon league organ. Neither one of them knows just which one of them it means, but both feel that it surely must mean the other. The item reads as follows:

A correspondent writing to the Issue says, "You advise that all temperance people unite upon one candidate for delegate to the constitutional convention if the county is entitled to but one delegate but do not tell us what course to pursue in order to get together in the event several candidates are already in the field."

Political horse sense and a desire to safeguard the best interests of the county and state should solve such a problem. It is as plain as day that if there is but one liquor candidate for delegate and two anti-liquor candidates the temperance vote will be divided while the liquor forces will mass their votes and will have a

good chance to win. In such a contingency the local anti-liquor leaders should frankly go to the weakest "dry" candidate, show him he is standing in the way of the forces of good government and urge him to curb his ambition and withdraw from the race. If he has the good of the cause at heart, he will do so. If he refuses, then the only thing to do is to organize and throw as many votes as possible to the strongest anti-liquor candidate.

ASKS PEOPLE TO CONSIDER FACTS

President Taft Promises to Fulfill Party Tariff Pledges.

Ottumwa, Ia., Sept. 30.—President Taft is through for the time being with his journey into the insurgents' country and will not return until he goes through on his way back to Washington the latter part of October. He ended his speechmaking here, as he began it, discussing the tariff. He had an audience of 3,000, and he impressed upon them again his desire for their support next winter when he recommends a tariff revision in accordance with the demands of their state Republican platform, and gained the crowd's applause with his earnest promise to do all that he had been pledged to do with respect to the tariff. He told them that he expected as president to be criticized by the press and by politicians, but that he felt certain the common sense of the people would go behind such censure and judge the situation on the facts. Support from the Republicans of Iowa, if he conforms next winter with the dictates of their platform, is the plea that the president has sounded in every address which he has made on the tariff in this state, and it seems to have taken well with his audiences.

Wine Senator Cummins. The president gained Senator Cummins, who has consistently opposed him in nearly every policy, to the support of his arbitration treaties. The insurgent senator's capitulation followed upon the heels of a peace speech which the president made at Des Moines before an audience of 4,000 people. The applause of the crowd was emphatic, and at the conclusion of the address Senator Cummins, who for the first and only time during the president's visit here was upon the platform, began to discuss the treaties with Mr. Taft as he was leaving the hall. The senator suggested that the clause providing for the personnel of the joint high commission which is to decide what questions are to be arbitrated should be more definite than in the text of the treaties. It is now provided that three nationals of each country involved should be appointed upon this commission, or otherwise if agreed to between the nations. It was the otherwise that the senator said bothered him. He thought the proviso should be eliminated.

"Well," said the president, "do that; make it necessary for the senate to confirm those appointments." And the senator then indicated his approval of the pact in that revised form.

When the Taft special arrived at Des Moines, Senator Cummins was standing at the head of the reception committee to greet him. Beside him stood "Lafe" Young, former senator, who is a thirty-third degree stand-patter and a candidate for the senate against Cummins' candidate, Senator Kenyon. The two stuck together the whole time that the president was in Des Moines. They rode side by side in an automobile and it was nip and tuck to tell which one was being applauded by the crowds.

CASUS BELLI.

New York, Sept. 30.—The trouble between Turkey and Italy dates back to 1908, when, with the making of the treaty concluding the Russo-Turkish war, the powers are understood to have agreed to permit Italy a "sacred penetration of Tripoli."

Turkey claims that this right has been respected ever since Italy has colonized Tripoli until her interests there are very great. She has asserted, however, that her subjects have been mistreated by the Italian authorities and discriminated against.

Frequent disputes have arisen, but the prolonged negotiations have never resulted satisfactorily to Italy.

TABOO GIVEN SMOOTH FAKIR

Coshocton County Fair To Be Free From This "Money Separator"

SHOW WILL BE BEST FOR YEARS

Races Expected To Be Faster Than Ever Before.

The Coshocton county fair this year will be free from that feature of such attractions that is a bore to everyone who attend the shows — the smooth talking fakir. The death knell for this expert in extracting money from fair goers has been sounded by the Coshocton County Board of Agriculture, according to a statement made by Secretary Miller Saturday morning.

The Coshocton county fair this year will be without a doubt the biggest and the best ever held in Coshocton. The races will contain more entries and faster horses than was ever known in the history of the local track; the show horse department, the cattle, sheep and hogs, department; the woman's department, the agricultural department; and the amusement features will all be more complete, and better than ever before.

The speed department will be presided over by Col. H. K. Laird of Cleveland, one of the best starters that ever officiated on a Coshocton race program. He will be remembered by his excellent and commendable work of last year.

The Races. The race entries will begin to pour into the secretary's office about next Friday and Saturday. The entries close Friday night at 11 o'clock. Secretary Miller expects more entries this year than ever before experienced. He says that men out in Indiana are talking about the Coshocton races and many of the most prominent race men in that state expect to have horses entered here. The attraction is the 2 1/2 per cent entrance fee which is made by the local agricultural society. Other county boards charge 5 per cent. With the lower rate the horsemen are saved \$7.50 on every entry and the feature makes them "sit up and take notice" of Coshocton's fair.

Show Horses. In the draft and registered horse department some big surprises are expected. Stock that was seen at the Ohio state fair this fall will be entered containing some of the finest bred horses in the state. The sheep and hogs department will also contain some high-classed stock.

Women's Department. Secretary Miller says that he already has enough entries in the woman's department to fill the hall and promises such a display of fancy work, etc., never equaled before.

Automobiles Cared For. The automobile entrance this year will be on the extreme east end of the grounds off Brower-ave. and Kenilworth-ave. On Tuesday and Wednesday parking places will be provided on the west side of the race tracks but on Thursday and Friday because of the large crowds that are expected the machines will be placed in parks on the inside of the race track.

Big Agricultural Exhibit. The agricultural exhibit this year will be a hummer and should draw big crowds of farmers to Coshocton. It alone will be well worth the price of admission. The exhibit will be featured by the State Agricultural Assn's exhibit in the care and raising of orchards and nurseries. Demonstration of the spraying of fruit trees, the care of the tree, etc., will be shown in a practical way. The Worcester experimental station will have a big exhibit in this department which promises to be even bigger than last year's.

Children's Day. Sunday the fair will start informally as usual, that is as far as the crowds go. Everybody will flock to the fair grounds and watch the work of erecting tents, see some of the stock and incidentally get the "fair fever."

But they must get their fill on that (Continued on Page Two)

Liquor Dealers Given Judgment

F. L. Shaffer Pays Balance Due Cleveland Firm On Bill Of Liquor Bought Between Oct. 4, 1910 and Jan. 6, 1911.

The suit for a balance due on a bill of "wet" goods purchased from the Wiedemann Bros. Co., of Cleveland by F. L. Shaffer of this city between Oct. 4, 1910 and Jan. 6, 1911, was settled Saturday morning when Squire Staats gave the Cleveland company judgment for the full amount claimed together with interest from June 14, 1911. The amount of

the judgment was \$251.90 with interest. The suit was started several weeks ago and came up for hearing Saturday morning before the squire. All the evidence offered showed conclusively that Shaffer owed the money asked and judgment was given. Shaffer will have to pay the cost of the suit.

Abandonment of the Canal Now Seems Sure

State's Refusing to Make Appropriation For Repair of Flood Damage Strikes Coshocton County Hard — Basins a Health Menace.

It looks very much as though the anti-canual agitators are going to have their wish. The three "basins," that for about three quarters of a century have added to the health and beauty of Coshocton county, are doomed.

By this time next year, where are now three as pretty inland lakes as one might wish to see, there will be nothing but an oozy morass of mud and cat-tails.

In other words, the state of Ohio, under the beneficent (?) administration of Harmon the Ambitious, has refused to appropriate money for the repair of the canal where damage was done by the recent flood. This means that at Port Washington the waters of the canal will seek their own course, at White Eyes they likewise will run at random, and with nothing to feed them, the Coshocton basins will become veritable mud lakes and hog-wallows, breeders of typhoid and all kinds of sickness. The landscape, now beautiful, will be marred by unsightly holes. What is now a garden spot will be but a foul stench in the rays of the summer sun.

Supt. Geldel Saturday admitted that the state department had asked him to try and make some temporary repairs that would keep the river out of the canals. "No repair money is to be given us," he admitted, "and it begins to look as though before winter sets fairly in the basins and Coshocton canals will be dried up. I can't speak authoritatively because I do not know what the department expects to do, other than that no repairs are to be made this fall. And if none are made this fall, the canal system, so far as Coshocton county is concerned, will be in ruins after a customary winter."

GAS COMPANY BUYS MORE GAS FOR CITY

Four New Wells Are Purchased To Be Connected Up With Main Line at River Bridge — Capacity Increased 3,000,000 Feet.

Coshocton will warm her shins, figuratively and also actually speaking, with Coshocton gas this coming winter.

The Coshocton Gas Co. has purchased four new gas wells, all within six miles of this city, with a total capacity of three million cubic feet of gas every 24 hours, and will attach them

to the main line at a very early date. One of the wells is the big one on the Waring farm, near Warsaw. The others are all in that vicinity. The company has also agreed to purchase two more wells, now drilling, in that same vicinity if they come up to expectations. Just as soon as these two wells are in, which will be early in October, men will start laying the new mains. The new line will branch off the present mains, at the Coshocton bridge, and go up past the ice houses to the Warsaw field.

More than that the company has recently drilled in a new 2,900,000 foot well in the Ulica field which will help supply Coshocton this winter. "We never have been in better shape for a full supply of gas than we will be this winter," remarked Manager Smith, "and we don't care a bit how cold it may get. We will be ready."

MILLER RELEASED ON BOND OF \$500
Chas. Miller, arrested a few days ago charged with rape preferred by the mother of Rosie Sheetz, was released from the county jail on a bond of \$500 Saturday afternoon. Miller's case will come up before the grand jury when they reconvene in October.

GREECE MAY WAR AGAINST TURKEY

Local Greeks Say They May Grasp The Opportunity.

TURKS HAVE GREEK SOIL UNDER-RULE

Coshocton Men Would Take Up Arms for Their Mother Country.

Louis Pentel a Greek who conducts a confectionery store on Main street forecasts a war between his country and Turkey, should real war between Italy and the Turks spring up and he says that should his country go to war he will take up arms and help his countrymen.

Greece many years ago lost some valuable territory, about two-thirds of original Greece, to Turkey by conquest. Several wars have resulted over the question but Turkey, with her 40 millions of people and strong standing army was too much for little Greece, with a little over 2 1/2 millions of people, and the disputed property is still under Turkish rule.

Greece Never Forgets. Greece has been watching her chance for many years for just such a situation that is now pending. They want the land of their forefathers back under the control of Grecian rule. As soon as the situation between Italy and Turkey warms, which seems now inevitable, Pentel says his country will begin a flank movement on Turkey and probably ally her forces with the Italians in an effort to regain her lost land.

Bitter Feeling. The feeling between the Turks and the Greeks has been bitter for many years. That some of Greece's largest cities are under Turkish control grinds against the nerves of the Greeks but with their small army pitted against one many times their numbers the Greeks fear that they never could make a stand for their rights. But with Italy a country of equal size with Turkey at some points with the country the Greeks feel that should they seize the opportunity that now seems to be presenting itself, Turkish rule can be overthrown and they can regain their land.

Sparta Still Lives. The blood of the Spartan of old runs through the veins of the few Greeks who make Coshocton their home. Several others, besides Pentel were interviewed Saturday by an Age reporter and each one declared himself strongly against the Turks. Pete Borrellis proprietor of a Main street shoe shining stand, said: "Turks no good. We fight 'em." Each one said with a thrill of patriotism in his voice that he would leave America and take up arms against the Turks as soon as Greece decides to make a stand. All seemed confident that this would be the outcome of the present trouble between Italy and the Turks.

Crushed But Will Arise. Pentel said that his country and several other smaller countries bordering around Turkey are ready to revolt at any time and have been preparing for war for many months foreseeing the trouble between Turkey and Italy and preparing to grasp the one long-looked-for opportunity as soon as the time is ripe. Many of the Italian workmen employed on many of the railroads in the United States have given up their positions and are leaving daily for home to take up their stand against Turkey with their mother country. None of the Italians in Coshocton, however, intend leaving unless Italy becomes hard-pressed for men which is not very likely. All of them seem confident that the outcome of the present war will be a victory for the Italians.

Mrs. Smith Better. Miss T. T. Smith who underwent an operation at Grant hospital, Columbus, a couple of weeks ago, is better Saturday. Mr. Smith went to Columbus Saturday to spend Sunday.

Miss Myrtle Overholt was operated upon Saturday morning by Drs. Shaw and Pomeroy for the removal of tonsils and adenoids. The operation was successful.

TURKISH TROOPS SINK TRANSPORT

(Continued From Page One)

stroy the forts without difficulty. The cruisers Marco Polo and Vetter Plani left Taranto with the squadron of torpedo boats and destroyers under the command of the Duke of the Abruzzi. At the moment of her departure the mine ship Minerva, carrying mines, and 150 torpedoes went aground and was slightly damaged. There will be 40,000 men altogether when the entire force is landed. Regiments are departing daily from the chief Italian towns for Palermo, Naples, Brindisi, Catania, Taranto, Genoa and Ancona, where they will embark aboard transports. The force will be established before Tripoli by Oct. 10.

AMERICAN TALKS

Tells How Hostile Arabs May Hamper Movements of Invaders.
London, Sept. 30.—Some commentators interviewed by the English press can see no possibility of Turkey making a useful resistance in Tripoli. They point out that Italy's complete command of the sea will enable her to land all the men necessary, while Turkey will be unable to reinforce her troops or supply them with ammunition when what they have is exhausted.

Professor Norton, the American archaeologist, who is here, maintains a different view, however. Professor Norton was in London awaiting the departure of a steamer, when his expedition was to have gone to Tripoli. He said that Italy's difficulties would only just begin when she landed her troops at Tripoli, Benghazi or Derna. There are nothing but open roadsteads, and ships of any size are compelled to anchor a mile off shore, which is only to be approached by small boats. The landing of men would not be difficult in good weather, but the bad weather begins in October, when there are high winds, and it is impossible for ships to remain long at anchor. The invaders must take in everything they want to eat. The Arabs are the only ones who could supply them with food and the Arabs are hostile to the Italians. The Turks and Arabs will be able to retire a few miles and harass continually the Italians. Nothing will suit the Turks better, says Professor Norton, than for the Italians to land and land as many as possible, for the larger the force the greater will be the difficulty of maintaining it. The Turks can live on dates and coffee, which the Arabs will supply them. Professor Norton suggests that the Turks will even be able to run in small detachments of reinforcements.

CABINET RESIGNS

Said Pasha Has Been Made Grand Vizier of Turkey.
Constantinople, Sept. 30.—Italian forces have landed at Tripoli and Benkhazi.

The Turkish cabinet has resigned. Said Pasha, president of the senate, has been appointed grand vizier, and Kaimil Pasha foreign minister. Mahmud Shekik Pasha will continue as minister of war.

The government has decided not to oppose an armed resistance to the occupation of Tripoli, and further, to take no measure against Italian residents in Turkey. The government hopes that by adopting that attitude Italy will not treat the Tripolitans as a conquered people.

MOBILIZED FOR SERVICE

Thirty Thousand Italians Ready to Sail For Tripoli.

Rome, Sept. 30.—Over 20,000 men have been mobilized for service in Tripoli and elsewhere and are all ready to start, under command of General Canova. Forty transports with steam up are ready at various points to take these men aboard and sail away.

Three squadrons are ready with steam up and under orders. The first is to intercept the Turkish fleet

at Beirut, blockade Turkish ports and prevent any blockade running. The second squadron has orders to patrol the Red sea, and the third is to remain in reserve at Taranto.

Scout Cruisers Sail.

Washington, Sept. 30.—Two American naval vessels are en route to Malta, where they will remain until further orders to be prepared to protect American interests in Tripoli. The scout cruiser Chester, which sailed from Boston a little more than a week ago, passed Gibraltar and entered the Mediterranean. The gunboat Scorpion, station ship at Constantinople, is now at Trieste. She has also been directed to proceed to Malta. They will arrive about Oct. 5 and will be held in readiness to proceed to the coast of Tripoli in case of necessity. It is expected here that the Italian government will look after the safety of the lives and property of foreigners in Tripoli during its occupation of that territory.

Five Killed by Carbineers.

Milan, Sept. 30.—The riots at Langhans are more grave than was at first thought. It is reported that the mob cut the telegraph and telephone wires and uprooted the poles. They also barricaded the railroad tracks in an endeavor to cut off all communication. A few carbineers were stoned and when they saw that they were on the point of being overcome the carbineers fired on the mob, killing five and wounding 12. The rest retreated in panic.

After More Entries.

See Miller and several other members of the board will visit the fair at Minerva, Akron, Mt. Gilead, Newark and Buretown, Pa. next week in an effort to land more attractions.

Excursion Trains.

Excursion trains will run on all roads leading into Coshocton during the week of the fair. Special trains to accommodate the crowds will run from Orrville, Millersburg, Cambridge, Perrinton, Canton, Zanesville and points between these towns. Record breaking crowds are expected this year and the board of agriculture expects that this year's show will prove the most successful ever held.

CANDIDATES AGREE TO SALARY SLASH

Cincinnati Will Have Cut Rate Mayor for Year 1912

Cincinnati, O., Sept. 30.—Whether Mayor Schwab is re-elected or Prosecutor Henry T. Hunt is chosen mayor, the mayor's salary for 1912 will be cut to \$5,000, according to an agreement made by Mayor Schwab, Prosecutor Hunt and County Commissioner Edmondson, in session at the courthouse as the county budget commission. The mayor's present salary is \$10,000.

Cutting the salaries of the heads of city departments was suggested as one way of reducing city expenses, and Mayor Schwab agreed that if he were re-elected he would accept the half of his present salary for his services in 1912. Prosecutor Hunt, a candidate for mayor opposing Mr. Schwab, agreed to make the same sacrifice if elected.

ELLIS DAM IS DOING DAMAGE

Farmer Claims Land is Rendered Useless by Erection of Structure.

The farmers of the Muskingum valley above Ellis are divided in their opinion that the new government dam is going to do much damage to the land along the river as far as back water from the dam extends, says the Dresden Transcript.

In building this dam at Ellis the government rendered the property of the farmers in the river bottoms liable to damage or destruction every time the river goes on a slight rampage, since it seems that the new dam causes the water to rise about four feet higher than it would in the event the dam was not there to obstruct the channel.

Rumor has it that the farmers owning the hundreds of acres of corn destroyed in the valley by the high water will attempt to collect from the general government.

Much feeling has arisen over the fact that hundreds of acres of valuable land have been rendered almost useless by the building of the Ellis dam and it is likely that the land owners will take the matter up in no playful mood in the near future.

The building of the dam was a part and parcel of the biggest piece of "foolishness perpetrated upon an unsuspecting and careless public, in the last quarter century in these parts."

HARRY ATWOOD TO DO STUNTS SUNDAY

Harry Atwood, the cross country flyer, will give some special flying exhibitions at Canton Sunday. The Age received this word by telephone from Manager Salisbury of the Canton meet, Saturday morning.

Agent Eckert is fast building up one of the best organizations along the road and largely to his efforts is due the constant growth of the road's business here.

BABY PITIFUL SIGHT WITH ECZEMA

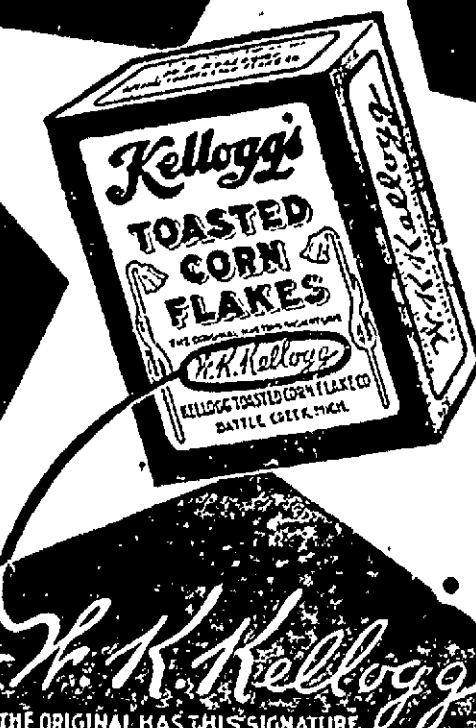

Completely Covered. Bandaged from Head to Foot. Dared Not Wash Him. Used Cuticura Soap and Ointment 4 Weeks and He Was Cured.

"A few days after birth we noticed an inflamed spot on our baby's hip which soon began spreading until baby was completely covered even in his eyes, ears and scalp. For eight weeks he was bandaged from head to foot. He could not have a stitch of clothing on. Our regular physician pronounced it chronic eczema. He was a very able physician and ranks with the best in the locality. In the meantime, the terrible disease began spreading until baby was completely covered. He was tormented by the itching and decided to try Cuticura Soap and Ointment."

"Not until I had used Cuticura Soap and Ointment could we tell what he looked like, as we dared not wash him, and I had been putting one application after another with no improvement. The sea from his head to his feet, arms and legs were entirely bald. But once we have been using Cuticura Soap and Ointment he has as much hair as ever. Just weeks after we began to use Cuticura Soap and Ointment he was entirely cured. I don't believe anyone could have cured a case more than our baby."

"Before we used the Cuticura Remedies we could hardly look at him, he was such a pitiful sight. He could not even be bathed. He seemed to be covered in sores. Cuticura Soap and Ointment stand by the millions and the result they quickly and surely brought the cruel tormenting skin disease to the point of complete cure." (Signed) Mrs. T. B. Brown, Mill Hill, Pa., Feb. 20, '11.

The Grange and the Constitutional Convention.

The grange in Ohio is bound to leave its impress upon Ohio's new constitution. State Lecturer Taber figures that 410 Ohio Granges have studied the coming constitutional convention in their meetings, that 20,000 people at least have listened on an average for one hour and ten minutes to this subject. In many places over the state grangers have secured the nomination of delegates and are now working hard to secure the election. The farmer is learning to use the newspaper to his advantage the same as others do. The grange meetings are reported in the local papers. This starts others to thinking. The discussions on such a great question start others talking outside of the Order. And from this thousands of Ohio farmers have concluded that the safest men to look after their interests are up-to-date, broad-minded farmers. Of course other occupations and professions should be represented in the convention but they are looking after their side of it and it's up to the farmer to look after his. The great fight is just coming and he must get more than one good farmer candidate. If several farmers allow ambition or other influences to get them out as candidates then the final vote will be scattered and that community will not have a farmer delegate.

A constitution is a great instrument. It is one that becomes the fundamental law of the land, usually for a long term of years. Farmers, get together and stick together in this matter. We need men in this convention who know the farmers' needs from real experience.—Stockman and Farmer.

Bethlehem Grange Will Hold Masquerade and Chicken Supper.

Bethlehem grange will have a masquerade party and chicken supper in their new hall near Randles Station Saturday evening, Sept. 30. Chicken, ham and butter, celery, pie and coffee will be served. Everybody is welcome and a jolly evening is expected. Bethlehem grange will dedicate their fine new hall in the near future, although the exact date is not yet set.

GRAY HAIRS QUICKLY BANISHED; DANDRUFF, FALLING HAIR STOPPED

Remedy Made from Garden Sage and Sulphur Restores Color to Gray Hair.

A feeling of relief was experienced by a man who writes: "I have been troubled for many years with gray hair and dandruff. I have used many remedies but nothing has helped me. I have been told that Gray Hair Banisher would help me. I bought a bottle and used it as directed. In a few days I noticed a change. My hair began to turn black and the dandruff disappeared. I am now completely cured and my hair is as black and healthy as ever. I can now go out without being ashamed of my hair. I am sure that Gray Hair Banisher is the best remedy for gray hair and dandruff. I will recommend it to all my friends." (Signed) J. H. Smith, New York, N. Y., Jan. 1, 1911.

A Hair's Breadth.
 A "hair's breadth" is seventeen ten-thousandths of an inch. For the purpose of such fine and delicate measurement toolmakers use what is called a micrometer caliper. The hair's breadth is something that has to be taken into consideration in the manufacture of a thousand and one things in the machine maker's art. Close calculation of this sort must be done on the doors of bank vaults, for example, where every part must fit to the nicest degree.—Harper's Weekly.

1 DEAD, 7 ILL FROM DIPHTHERIA

CALDWELL, Sept. 30.—All of the school children of Belle Valley, three miles northwest of this place, have been placed under quarantine because of an epidemic of diphtheria. The schools have been closed all week.

There have been seven cases developed so far and one death, the latter in the family of Albert Richards. The 8-year-old son, Albert, died Friday morning.

Health officials believe they have the epidemic under control now.

BIBLE STUDIES
SET AS A WATCHMAN
 Ezekiel iii—Oct. 1

"Hear the Word of My mouth and give them" warning from Me."—Ezekiel iii, 17.

Ezekiel ranks amongst the great visions. Most realistic were his visions and powerfully described. A portion of his prophecy was written before the final serious troubles upon the kingdom of Judah, which resulted in the overthrow of Zedekiah's kingdom. The remainder of the book was written after the complete overthrow of the kingdom. The entire prophecy was given in Babylon. Ezekiel himself residing there and ministering as a prophet chiefly to the captives, arousing their hearts to an appreciation of their situation and to a hope of return in God's appointed time to their own land.

It would be a mistake, however, to suppose that Ezekiel's mission was entirely or even chiefly to the Jews of his time. Rather we are to understand, through St. Peter's statement, that he, with other Prophets of old, spoke and wrote things which they themselves and the people who heard them did not understand—things which God did not wish to have understood until after the giving of the Holy Spirit at Pentecost—things which would be "ment in due season" for the spiritual Israelites throughout this Age.

For instance, when Ezekiel tells the people, "The soul that sinneth, it shall die," he was delivering a truth applicable to the Gospel Church during this Age, and a truth which will be applicable to the whole world during the Messianic reign, but which was not applicable to the Jews at the time of the utterance. Why? Because the whole world at that time was lying in the Wicked One; as St. Paul explains, they were all under sentence of death already through Adam's disobedience. Hence they could not be put on trial for life, individually, until first they should be redeemed from the Adamic condemnation.

The blood of bulls and goats could never take away sin from the Jews; the redemption could come only in the divinely appointed way—through the death of the Savior; and the Savior had not yet come, had not yet brought life and immortality to light through the Gospel. And as for Israel's Law Covenant, it was merely typical of the New Covenant of the future.

No amount of turning from sin could give anyone eternal life. None could so turn from sin as to be perfect, hence the necessity for the Savior. When Ezekiel refers to the proverb that "the fathers have eaten a sour grape and the children's teeth are set on edge," he was stating the general fact that all human sin and weakness descends by heredity from parent to child, and that the matter of recovery is therefore a hopeless one except as a Redeemer, separate and distinct from the sinner race, would be provided. And this provision for release from the weakness inherited from father Adam has been provided by Jehovah through His Only Begotten Son, the world's Redeemer.

"Times of Restitution"
 In the 16th chapter of Ezekiel's prophecy the declaration is clearly set forth that in the Divine Plan, a great restitution is sure to come which will affect not only Israel and the living nations of Ezekiel's time, but also the dead of all nations. From the 40th verse onward the Prophet describes the certainty of God's promise to recover Israel, to bring them back into His favor, and that on a better basis than ever in the past. At the same time the Lord declares, through

the Prophet, that the Samaritans will be restored and blessed, and that the Sodomites will be restored and blessed. The latter nation had been entirely destroyed by fire from heaven, as the redeemer declared. It follows that their restoration must be from the tomb, from death, hades sheol.

The prophecy goes on to declare that the Lord will not do this because of any worthiness of the Israelites or others, but for His own Name's sake—of His own good pleasure. In other words, this is the purpose which God purpose in Himself from before the foundation of the world. This is the purpose which He declared to Enoch, saying that in due time Messiah would "come with myriads of holy ones" to establish justice and righteousness in the earth, to bless the people. This is the same message which God declared to Abraham saying, "In thy Seed shall all the families of the earth be blessed." This was the hope which Israel had so long entertained and which the Lord declares will not go unfulfilled.

This description is found in verses 10 to 60, the conclusion being that when Israel thus experiences the goodness of God in their restitution they will ashamed and never open their mouths again by way of boasting or complaint. This will be after God's favor shall have been restored to them and He shall be pacified toward them in respect to all of their idolatrous doing of the past. The pacification of Divine Justice is found in the redemption accomplished by our Lord and Savior.

Ezekiel is one of the prophets referred to by St. Peter as prophesying respecting coming "times of restitution"—blessing of Messiah's kingdom, to be inaugurated at the close of this Age as soon as the Church shall have been elected to be the Royal Priesthood and shall be glorified with the great prophet, Priest, King, Mediator, their head and Lord. St. Peter declares that these coming "times of restitution are mentioned by "all the Holy Prophets since the world began," and Ezekiel's reference to them mark him as one of the Holy Prophet—Acts iii, 19-23.

Viewing our Study from this standpoint we perceive that Ezekiel stood for, or represented the son of Man, the great Teacher, the Redeemer; he also represented the members of the "Bride of time to time," use as His mouthpieces.

Not Torment But Death.
 It is worthy of note here that neither the Prophet nor those whom he typified were ever commissioned to say to mankind that the sinner would be eternally roasted, nor suffer eternally in any condition. The extreme penalty for sin presented to us in God's Word is, "The soul that sinneth, it shall die." In other words, God declares that He will not give eternal life to the wicked, but only to those who will turn from sin to righteousness. Thus we read, "Turn ye, turn ye, for why will ye die?" And again, "It is that hath the Son hath life, and he that hath not the Son shall not see life (everlasting), but the wrath of God abideth on him"—the wrath or sentence of death everlasting.

All of God's consecrated people of today are in duty-bound to make clear this feature of the Divine Program, that all willful sin will bring death, that all willful sinners, as St. Paul declares, shall be punished with everlasting destruction—not with everlasting torment (II Thessalonians 1, 9). Every member of the Body of Christ is a watchman on the walls of Zion, even though today Zion be in Babylon, as were those typically addressed by the Prophet Ezekiel.

Wind Prevents Flights.
 Canton, O., Sept. 30.—High winds, amounting almost to a gale, prevented Harry N. Atwood and Andrew Drew from making flights at aviation field. Announcement that C. P. Rodgers would fly from Kent to the Canton aviation field put everyone on the tip-toe of expectancy, but a message from Rodgers at Kent said he would not risk the flight. He announced that he will come to Canton today if weather conditions permit.

HEALTHY MOTHERS

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores.

SOME ARE BAYING

The handful of insurgents of the Republican party are evidently worried over President Taft and his swing around the circle. It is refreshing as well as amusing to read in some of the enunciated publications of that cult, that President Taft's journey throughout the west is a fraud and that he finds the people of the strongly Republican states almost to a man against him. Indeed this might be alarming were it true, but it lacks that salient quality, according to the most veracious reports. Correspondents who are reporting for Democratic publications are trying to minimize the reception being given the president, but the Associated Press, the one unbiased medium, gives far different accounts. And it is also refreshing to hear President Taft declare in his speeches that he is just as strong for protection as he ever was; that he believes in it, and wants it adjusted out of politics and for the commercial needs of the people as a whole. He stands by the wise plan of a tariff commission and for a scientific and constant adjustment of the tariff, and in that he is meeting with heartiest endorsement of the farmers and producers of Iowa and the middle west. Contemplate for one moment, if you please, changing presidents and placing in the chair of Mr. Taft, say Mr. Hieronimus Harmon, for instance, with his double-dealing policies; or Professor Wilson, with his pedagogical theories; or Champ Clark, with his blatant utterances, such as on Canadian annexation. Any of them compare with Mr. Taft? William H. Taft is making one of the best presidents this country ever had—fair, honest, progressive and with an unusual perspicacity and discernment.

CREDIT FOR THE TAX SCHEME

"For nearly three years Republican general assemblies and Republican state officials fought a low tax rate," says Gov. Harmon.
How short is the memory of the aged.
The whole scheme of taxation advocated by Gov. Harmon is embodied in the report of a taxation commission created by Gov. Harris, pursuant to a resolution of the Republican state convention in 1905. The report of this body was ready when Mr. Harmon became governor.
And, too a plank in the Republican platform demands "limiting the tax rate for all purposes to 10 mills."
The Democratic legislature made the limit 15 mills.

Washington, Sept. 30.—Indications for tomorrow:
Ohio — Unsettled; light to moderate variable winds.

A WISE REFORM

If the women's clubs of this city want to do something well worth while they might emulate their sisters of New Jersey who have brought about one of the greatest sanitary reforms any state has ever tried. And more than that, the people at large are endorsing the reform and all trying to enforce it, and it is being enforced. When your train rolls across the Jersey line, the public glass or drinking cup in each car is sequestered; for it is against the law to use a public drinking cup in New Jersey. That law, that reform, was originated through the efforts of club women of Plainfield and other Jersey cities. They kept at it, molding public sentiment first and then finally bringing the matter before the legislature with the result that the law was passed last winter abolishing the public cup, with all its attendant germs and chances for contagion. In many places the bubble fountain has been introduced, such as we have here, but the old faucet fountains are retained generally and a clever device introduced. The "penny in the slot" machine is made to work for the weal instead of the woe of the people at last. By dropping a penny in the slot one may get a full sized paper drinking cup. The authorities see that the machines are kept filled with the paper cups and for each penny introduced, one drops down. After using, it may be thrown away. New Jersey has taken a forward step in the right direction and Ohio would do well to follow her lead.

TAKING CANDY FROM BABY

Persons anticipating emoluments through the promotion of Gov. Harmon are saddened to learn by an historically correct assertion of Col. Thomas E. Powell, one time Democratic candidate for governor, that no man of Harmon's age has ever been voted into the white house. Added to this, a mathematician has figured the facts that the governor is now 68; in the year of his inauguration as president he will be 70; during a second term, to which his glorious administration will surely entitle him, he will become 78.
Neither evasion nor procrastination can fool Time, and J. P. Morgan can't buy youth for self or friend.

LAW MADE WHILE YOU WAIT

The Saturday Evening Post, which is a member of the magazine trust now under indictment, has declared for the judicial recall, on the ground that there is no way to reach judges who insist upon construing the law technically and not in accord with the popular will. In other words, the Post wants judges who will not construe but manufacture the law "while you wait," under threat of removal for failure to properly interpret the "popular" will. It is to be understood that the Post and its allied "trust" publications are the official proclaimers of the afore-said popular will.

"PUTTING THINGS OVER"

"The very first week they began putting things over on us; and the second week, by the third week we began to get wise," says President Thurman of the board of administration in speaking of the graft in the penitentiary and state hospital.

All the muckraking magazines but one are in the trust against which Attorney Wickersham brought suit.

BLOCK PAVEMENT

When the Fourth street asphalt pavement was laid about six years ago, there was a five year guarantee on it. The pavement lived out its limited guarantee and that was all. It could not have been a first class job. The best pavements around Coshocton are the paved roadways of the bridges between this town and Roscoe—creosote wooden block. The city of New York, down town, where the heaviest traffic in the world uses the pavements every day of the year, is putting down creosote block, and it is outlasting the old granite blocks that formerly held sway, and is as smooth and as noiseless as asphalt. We believe that sheet asphalt is one of the best of pavements when properly laid but it looks as though the creosote block is better. Coshocton might try it, save the greatest city on the continent is giving it such extensive usage.

THE WAR GAME

Italy is following Japan's tactics in declaring war suddenly and before Turkey can concentrate any troops or vessels. When Japan declared war on Russia she did so in a flash for the sole purpose of keeping the Russian fleet split, which she successfully did. Italy is doing the same. If there is any rule of etiquette or honor in war, it has been the custom for centuries for countries contemplating war to first give due notice to other countries and to begin on war only as a last measure.

The trouble between Turkey and Italy, which culminated in a declaration of war at Rome, dates back to 1878, when, with the making of the treaty concluding the Russo-Turkish war, the powers are understood to have agreed to permit Italy a "pacific penetration of Tripoli."

Turkey claims that this right has been respected ever since. Italy has colonized Tripoli until her interests in that African province are very great. She has asserted, however, that her subjects have been mistreated by the Ottoman authorities and constantly discriminated against. Frequently disputes have arisen, but the prolonged negotiations have never resulted satisfactorily to Italy.

A few days ago the First Squadron of the Italian navy was sent to Tripoli waters, and it has since patrolled that coast. At the same time Turkey was warned not to send soldiers or munitions of war to Tripoli. A Turkish transport, bearing a few men and arms and ammunition, later arrived at Tripoli from Constantinople but was not molested, on the ground that she had sailed before the Italian warning had been received.

Italy, in the meantime, brought her army to the Italian coast, where the men had been placed on board the ship, ready to proceed to Tripoli or other points. A second squadron is designed for Salonica.

BRYAN ON CLARK

In his issue of the commoner Friday Wm J. Bryan puts the blame for the defeat of reciprocity with Canada on Champ Clark. His article deplores the defeat of the treaty and declares it was largely the result of the annexation bogey.

"Speaker Clark's declaration in favor of annexation," the article says "was an indiscreet utterance for one occupying a position of authority and had much to do with the result because of the use made of it."
Mr. Bryan is of the opinion that reciprocity was an unfortunate issue, anyway. First, because it gave Canadian protectionists a chance to appeal to anti-American prejudice and second, because it laid emphasis that the tariff tax hurts the foreigner instead of the consumer at home.

This last clause is what the Republican party has always contended. We welcome the distinguished recruit to our ranks!

The most used and most effective argument in the campaign against reciprocity in Canada was the statement made the speaker of our National House, Champ Clark: "I hope to see the day when the American flag will float over every foot of British North America."

Scientists tell us Brooks' comet is now visible. However, Mr. Haley's comet got the whole genus into dispute about a year ago.

MORALITY IN ROADS.

At the National Good Roads congress, Bishop Fallows said:

"Good roads are closely allied to religion. Good roads, in the country districts would not only increase the church attendance, but would improve the general moral tone of the community. It is a work that is worthy of the assistance of all the churches in the country."

That is good gospel. A man's ideas and purposes are always bettered by fair surroundings. Order, neatness, usefulness constitute a sort of high plane of thinking. Given the character of the material conditions of a community and you can almost tell how it will vote or in what numbers it will go to church. A dirty gutter is an obscene story. A deep mudhole in a country road is a nest of profanity. A miserable old broken down hog pen nearby is a scandal in the neighborhood. A man's garments are ragged, filthy and disordered, so is his thinking.

So, making good roads, parks, sidewalks, gutters the tone of public sentiment is elevated, and it can then be counted upon to support the true progress of a community. A bad outlook pulls a man down like a bad companionship.

If the so-called farmer's free list bill had been vetoed it would make a mess now that reciprocity is repudiated, wouldn't it?

The most important office of a state constitution is to prevent "class" legislation.

TEN YEARS AGO.

From The Age of Sept. 30, 1901.

Doctor Platt has his time well occupied denying the wild rumors to the effect that all the schools in the city will be closed in a few days because of fear of diphtheria. It was well circulated over town this morning that a number of cases had been found in each one of the buildings. Dr. Platt, however, denies the rumors.

Perils of Marriage

Young married people have many obstacles to overcome before they reach the smooth pathway which experience will provide. The young housewife finds her most difficult problem in keeping things "ship-shape" for "hubby" returning from his day's endeavors.

Hewitt's Easy Task soap, pure and white, lessens her labors one-half and gives the sparkle and glow to the china, glassware and silver which gives an impetus to the appetite of a man who has forgotten this most important matter in his everyday toil. Try it at five cents a cake. Just as cheap as "cheap" soap.

Please announce the name of Allen V. Marshall as nonpartisan candidate for delegate to the constitutional convention at the election to be held November 7th, 1911.

Editor Age: Please announce the name of Richard Brunsell as a candidate on the Republican ticket for Trustee of Tuscarawas township at the election to be held Nov. 7.

NATURE TELLS YOU

As Many a Coshocton Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's index. Infrequent or too frequent passage. Any urinary trouble tells of kidney life.

Doan's Kidney trouble tells of kidney life.

Doan's Kidney Pills are for the kidneys only.

Coshocton people testify.

John Schaffer, 324 North Fifth St., Coshocton, O., says: "I suffered from pains across my kidneys and my back was so lame that I could hardly move. The kidney secretions ceased to flow and I broke my rest. At length Doan's Kidney Pills were recommended to me and I procured a supply at Siegel & Williams' drug store. After I had used the contents of two boxes I was greatly relieved and my kidneys became normal."

Mr. Schaffer gave the above testimony in August, 1906, and when interviewed on May 8, 1909, said: "Doan's Kidney Pills cured me of kidney complaint three years ago and my kidneys have bothered me very little since. I gladly recommend this excellent remedy."

MISUSE OF GRANGE FUNDS

(Editorial Athens Tribune, William J. Warner, Secretary Athens Co. Pomona Grange, Editor.)

It would be an interesting thing to know by what authority speakers are being paid out of State Grange funds to go around over the country advocating political doctrine not endorsed by the State Grange in any official way. It would also be interesting to know why certain State Grange officials attended a political meeting on a Sunday and went in with single taxers, Socialists and other political faddists and assisted in the organization of a league for the purpose of securing certain things in the proposed new constitution to which a large number or probably most, grangers are opposed. The grange allows freedom of opinion in matters political and religious and its state funds ought not to be used for religious or political propaganda. Any member of the grange is free to advocate any religious doctrine or political theory he pleases so long as it is not subversive of good morals, but he must do these things as an individual and not at the expense of the whole membership.

Men posing before the public as official members of the State Grange should be careful about drawing money from State Grange funds for per diem allowances and putting in time advocating theories about which grangers differ and which are purely political questions.

EVERY CITIZEN A STATESMAN.

Clermont County "Mossback" Has Opinions and Expresses Them.

The Initiative, the referendum and the recall are hard hit in a communication published in the Clermont County Democrat and signed "Mossback." He says, among other things:

"We have reached a stage where almost every citizen is a statesman, and while not many new ideas are originated among us, we are ready to accept every new vision that is preached by dreamers and eccentrics, which sound melodious and savor of a human paradise; but when tried by our daily conditions, our human passions, our environments, our neighbors' rights, as well as our own, they fail to make us more peaceful, more happy or more prosperous than the old order of things, which by the aid of us, cleave to their mold. No demagogue ever led a successful revolution, reformation or revocation of unjust laws.

"Representative government was considered a very good system for intelligent freemen. In theory it is as near perfection as human genius can design. Its failures and shortcomings are not in the mold, but in the agency that manipulates it. It provides a remedy by a change of agencies. Nothing is perpetual but the system. The men at the hopper come and go, according to their deserts and usefulness. Discrimination and injustice can continue only so long as the people assent to it.

"Conditions and circumstances may arise in which the initiative and referendum may be protective and expansive, but with better case, closer scrutiny and more intelligent action, the servant and representative of the people, in any official capacity, would be obedient to the law and submissive to the sane wishes of those who put him there. And what more do you want or what more can you get with all your new and novel inventions?

"The recall of the judges is a delicate and dubious theory. It might be used for good and it might be used for evil. It is a risk with the chances against its benefit. To change the law by referendum is one thing, but to depose a judge by recall for his interpretation of the law is quite another. Under existing conditions judges are answerable like other public servants for their conduct in office.

NEWSPAPER LIBELS.

(Ohio Journal of Commerce.)

In the October number of the Century Magazine Hon. William J. Gaynor, mayor of New York, tells some wholesome truths about newspaper libel. The article has the title "Libel in England and America." This quotation is respectfully called to the attention of the sensational Scripps-McLure Newspapers:

In the whole range of rights won by human progress, none is more important than free speech and a free press. Without the free press, no government could exist. Yet democratic institutions have a deadly enemy that the professional falsifier of daily events or the professional liar who misrepresents and betrays the community through the printed sheet; and free government can not survive the continuance of such a condition. Freedom of speech and of press means freedom to speak and write the truth, not falsehood or abuse.

There are about 27,000 newspapers in the United States today served by perhaps 100,000 writers. The immensity of the power for good represented by the American press, supplying the needs of half a million people who would otherwise be nothing but 215,000 ministers of evil, makes it all the more important that no editor should be given to him who turns journalism into systematic deception or moral assassination.

It is not only that the libel widely spreads the home, spreads private character and spreads social suffering and confusion, but he strikes at the very heart of good government by intimidating public officials by persistent and systematic misrepresentation, thereby corrupting public knowledge and public sentiment, upon which free government depends.

In the lot is a fast pacing mare which Mr. Adams expects to enter in the county fair races. He also purchased a promising young trotter.

KICKED HOLE IN ASPHALT PAVEMENT

Scores of people have been interested today in watching the workmen of the Trinidad Asphalt Co. repair the Fourth and Chestnut street pavements. It is a most interesting operation, concluding as it does with the smooth out of the peculiar powdered black substance with hot iron on long poles, and this followed by sprinkling and brushing on some cement which gives the pavement its light color, and then running a 5-ton roller over it.

Service Director Connelly states that the Chestnut-st. job is many times a better piece of work than the Fourth-st. job and although much older does not begin to show the wear the Fourth-st. pavement does, and has had to have but a tenth of the repair work done.

One Fourth-st. man was not tied to cease hitching his horse to at telephone pole on South Fourth-st. as the horse stamps the pavement out and a big claw had to be repaired on that account.

\$3.50 RECIPE FREE, FOR WEAK MEN

Send Name and Address Today — You Can Have it Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory, and hunched back, brought on by excesses, unnatural drains, or the follies of youth, that have cured so many worn and nervous men, and in their own homes without any additional help or medicine—that I think every man who wishes to regain his manly power and vitality, quickly and quietly, should have a copy. So I have determined to send a copy of this prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest, acting combination for the cure of debility, manhood and vigor failure ever put together.

I think I owe it to my fellow man to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop dragging himself with painful patient medicine, secure what I believe is the most potent, potent, stimulating, spot-touching remedy ever devised, and so cure himself at home quietly and quickly. I will drop me a line like this: "Dr. A. E. Robinson, West Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$2.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free.

SHOPMEN OBEY STRIKE ORDER

**Thousands Drop Tools at
The Stroke of Ten—Two
Big Lines Are Affected**

Chicago, Sept. 30.—Between 20,000
and 35,000 employees quit work in the
various shops of the Harriman lines
and Illinois Central system at 10
o'clock this morning, according to re-
ports received at union headquarters
here, the walkout being in accord-
ance with the general strike order.

Strikebreakers are being recruited
at the large industrial centers of the
country and will be rushed to the
points where strikes are in effect.

Chicago will be more seriously af-
fected temporarily than any other
large city as 1,000 Illinois Central
employees at work at the Burnham
shops walked out in a body.

Ultimately the whole United States
will be affected and there will be a
complete stop of all railroads, ac-
cording to James W. Kline, interna-
tional president of the Brotherhood
and helpers' union, who made the of-
ficial announcement of the strike.
Later Mr. Kline made a statement
containing the views of the labor
leaders. He said:

Ask For Square Deal.
"The stormclouds that have gath-
ered over the Harriman lines and the
Illinois Central for the last two
months have broken. We want the
public to give us a square deal.
There has been more or less delay
over the calling of the strike, and
we have not yet been able to settle
all the details."

"One of our objections to the Har-
rison Central and the Harriman sys-
tem is the physical examination. This
forces men to remove all their
clothes while undergoing examina-
tions by various railroad physicians.
There are many other objections
which will be made evident from day
to day."

"We will shift our headquarters
from Chicago to Atlanta, Ga., today.
These the national convention of the
blacksmiths and helpers is to be
held. I believe, as do the other offi-
cers of the various unions, that vic-
tory is certain."

"This is to be the big test. The
Chicago & Northwestern, the Chi-
cago & Eastern Illinois and the Mis-
souri, Kansas & Texas railroads have
refused to meet the employees pend-
ing the outcome of the situation that
has resulted in calling the strike of
employees of the Illinois Central and
Harriman lines. If we win this strike
all the railroads of the United States
will submit to a federation."

All the men that are out of work
are union men and they will stick
like glue. I predict that within a
week there will be 75,000 employees
of various railroads on strike."

Walk Out in California.
San Francisco, Sept. 30.—More
than 8,000 railway employees in Cal-
ifornia laid down their tools this
morning in pursuance to wired ad-
vices received in San Francisco from
different federation leaders through-
out the United States. Almost half
this number were men living in San
Francisco. Points as far north as
Portland, Ore., and as far east and
south as New Orleans, are affected
by this action of the railroad men.
Those in the local shops have been
prepared for some time to receive a
call to leave work, and now that the
order has gone forth many men are
expressing satisfaction, claiming that
a decision of any sort is better than
the uncertainty they have experi-
enced the last few weeks.

Woman's Yellow Peril

Housewives wonder why the under-
wear, table linen, bedding and all other
washable fabrics wear out—fall to
pieces so quickly. It's the strong, yel-
low soap which eats through the fibre
and weakens it to the tearing point.
A pure, wholesome soap need be no
more costly than these destructive
compounds. Hewitt's Easy Task soap
will prove this to be true.

It is a clean, white soap without
the impurities of the crude, strong,
yellow soaps, and will do the work
with half the labor. Five cents a cake.
Try it.

MARKER LOOKING AT EASTERN ROADS

COLUMBUS, Sept. 30.—State High-
way Commissioner James R. Marker
is at present studying the latest
methods of road construction in the
east. He went to Richmond, Va., to
attend the national good road con-
vention, and from there he went into
New York and other eastern states
to study the method of bettering
the highways. The eastern states are
far advanced over Ohio in the im-

proved ways, and it is expected
that many points that will have the
state highways will be learned by Com-
missioner Marker during his visit.

OLD CASE REVIVED
Woman Arrested For Alleged Poisoning Of Two Stepchildren

Charleston, W. Va., Sept. 30.—Six years after her two stepchildren, Herbert and Walter, had died from what was then diagnosed as promine poisoning Mrs. Dora M. Thumma, wife of John Thumma, a merchant, is under arrest charged with the murder.

In 1905 her three children became suddenly ill and two died during the night. Rome, now a young man, recovered, and upon his testimony will likely rest the conviction of his stepmother. It is said, according to detectives, that the mother gave each of the children a cup of coffee and insisted upon them drinking it. Rome claims that his brothers drank theirs but he only took a portion of his. The bodies will be exhumed.

MOST COMPLETE DICTIONARY
NO INCONVENIENCE THEY ARE ALL THERE

There are many words now constantly used, which are not to be found in the dictionaries published a few years ago. By comparison is the only way to prove to yourself which volume you want in your office, your home, or the children's schoolroom.

Many times, no doubt, you have turned to your dictionary to look up a word. Then after searching for about a half hour you have closed the book in disgust. The very word you wanted was not there.

Such inconvenience as this will not be experienced if the dictionary at your elbow is one of the Webster's New Revised Standard Dictionary, which is being given to the readers of The Daily Age. This wonderful volume contains all the new words coined by necessity by the scientists, the doctors, the astronomers, the lawyers, the master mechanics and the dictators of fashion.

If you are enough interested in your own welfare in a commercial as well as a social way you will not be satisfied with a book of less completeness than one offered by The Daily Age. See page 6 of this edition and learn all about this great offer, no doubt, the most wonderful ever made to the subscribers of a newspaper.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY
As mercury will surely destroy the sense of smell and complete the drainage the whole system when entering it through the mucous surface. Such articles should never be used, except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good they may possibly derive from them. Halls Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system in curing Catarrh. It is taken by the system and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 25c per bottle. Take Halls Family Pills for constipation.

FIRE PREVENTION OBSERVED MONDAY
COLUMBUS, Sept. 30.—Indications are that Fire Prevention Day on Monday, Oct. 5th, will be generally observed, and to inaugurate a state campaign to arouse interest in the event, even greater than it is, a conference will be held in this city next Monday. Deputy state fire marshals, insurance men and heads of civic organizations everywhere in the state have been invited to attend, and it is planned from this meeting to send out circulars and give the proclamation of Governor Harmon more publicity in every way, so that the day will be even more generally observed.

CROP REPORT TO BE MORE COMPLETE
COLUMBUS, O., Sept. 30.—There is unusual interest in the monthly crop report which will be issued next Monday by the state board of agriculture for the reason that it will go more fully into the growing and harvested crops than ever before. Most of the correspondents of the department were in Columbus during the state fair, and were given special instructions regarding their work, in the effort of Assistant Secretary Jas. W. Flemming to make the reports more accurate and up to date. Not only will the wheat, corn and oats crop be covered fully, but the apple, potato and, in fact, every farm product will be estimated in the monthly bulletin.

Sheep 1.00@1.15
Lambs 3.00@4.25
Calves 4.00@9.25

Cattle.
Usual quiet and nominal cattle trade. Feeling steady and no change in values. Recent improvement in west is encouraging. Local traders optimistic as regards outlook.

Calves.
Fair supply calves on offer today. Morning receipts embraced 100 head—quality fair. Offerings included two years of westerns. Native calves are scarce and in good demand. Prices strong—all at hand were needed. A couple select veals topped at \$9.50. Butchers paid \$9.00@9.25 for good to choice qualities. Not enough native calves to fill all orders. Market closed steady—future prospects good.

Hogs.
Not so many hogs were on sale today. Situation denoted stability for best quality. 1400 hogs made up the day's receipts. Medium and handy hogs steady at \$6.80@6.90. Light and pig classes not improved. Good light Yorkers sold at \$6.00@6.25. Pigs weak and continue dull holdings. Range for fair to good kinds was \$5.00@5.50. Market closed steady for desirable weights. Heat quality 25¢@25¢ below Monday; others off 25¢@50¢.

Sheep and Lambs.
Light supplies in sheep barn still continue. Small run 250 head came to hand today. Quality fair—choice sheep again absent. General values steady—trade limited. Sellers quoted prime wethers up to \$1.15. Better and common kinds were slow sale. Business over early—trade closed quiet. Levels today were firm with Monday.

PARENTS IDENTIFY VICTIM OF WRECK

Local People Attend Fu-
neral of Lad Killed at
Canton Wednesday

(Alliance Review.)

The fears that one of the number killed in the railway wreck on the W & L. E. railway, near Canton, on Wednesday night, was an Alliance young man, as stated in Thursday's Review, have proven true, the unfortunate boy being Merle Whitacre, son of Mr. and Mrs. Charles E. Whitacre, corner of South Linden avenue and Miller street.

The young man had left home in the morning in the buoyancy of his young life, to attend the aviation meet at Canton, his parents giving him money to defray expenses, more than he had asked, he bidding the fond parents a cheerful good bye as he left the home. Little then did they think that his going away was the last time they would see him alive.

When in Canton it seems the young man fell in company with some companions and in the evening with the other young man killed, concluded to go to Minerva, where it is understood Whitacre had been recently employed. They had taken a position on the ill-fated train between the baggage and another car and had traveled but a short distance when the fatal accident occurred.

Young Whitacre was badly mangled, one arm torn off, the other broken and his side crushed, his clothing torn to shreds. His identification was established by some papers in the boy's pocket bearing the father's name.

The parents upon being called to Canton to view and identify the remains hoped almost against hope that it was not their son, the victim of the wreck, but it was only too true. The remains did not arrive at the home until Friday morning, it being impossible under the circumstances to sooner get them to Alliance.

Merle Whitacre was 16 years old, a bright and industrious, good natured lad, and his untimely death is a severe blow to the loving parents. Besides the parents he is survived by two brothers, Floyd and Leslie, and one sister, Genevieve.

Funeral services in charge of Rev. C. B. Reynolds of the Christian church will be held Saturday afternoon at 2 o'clock from the home, followed with burial in Alliance cemetery.

Mr. and Mrs. C. A. Whitacre of So Lavan avenue, have gone to attend the funeral. The lad was their nephew.

Lang Succeeds Wirmer.
Columbus, O., Sept. 30.—On his return from his sojourn among the people of Pennsylvania, Governor Harrison handed out another plum. He appointed Fred Lang, superintendent of the Cleveland free employment bureau, as commissioner of labor statistics, to succeed Charles A. Wirmer, who has resigned to become chief examiner of steam engineers.

FOLKS PAST FIFTY MUST USE CASCARETS

What glasses are to weak eyes, Cas-
carets are to weak bowels—a 10
cent box will truly amaze you

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

PULLED FROM RIG BOY BADLY HURT

John Strain Clung To Lines
In Runaway And Is
Jerked Out

Thrown over the dashboard of his buggy after the colt which he was driving bolted, John Strain, 15 years old, the son of Darwin Strain who lives three miles north of Warsaw, clung to the lines and was dragged 50 feet Friday. He sustained a deep scalp wound and was knocked unconscious by a blow on the head. He was picked up 15 minutes later and taken to the James Frederick home where Dr. Moore of Warsaw attended him.

The young man was on his way to school. After the horse started to run he held to the lines until the animal freed itself from the buggy pulling Strain over the dashboard. The horse became frightened when the holdback strap broke while they were going down a hill on the Emanuel Latin farm.

Young Strain's injuries are painful but not necessarily serious. He is better this afternoon.

She Learned Something
"This is a fine coffee," said the visitor to her hostess; "how do you make it? I make mine so and so, but it never tastes like this." "Well," replied the hostess, "I make this the same way, but I've learned something. Maybe you don't keep your coffee pot clean—that is, I mean maybe you use common kitchen soap. I use Hewitt's Easy Task soap. It's pure and clean and white, and costs the same as the poor kinds. Then, too, it makes a nickel-plated coffee pot shine like silver."

CLAIMS THAT HE CAN WELD COPPER

CANAL DOVER, Sept. 30.—R. J. Campbell, proprietor of a blacksmith shop at Sandysville, after several years of experimenting, has discovered a compound which makes possible the welding of copper. This process, or one similar, was in use long ago, but has been a lost art for centuries. Although his work is almost altogether such as comes to a village blacksmith, Campbell has made quite a study of metallurgy, and after having made tests at spare times during a considerable time, has finally succeeded. It is believed that no other process for successfully welding copper is known today.

DISTURBED YELLOW JACKETS—STUNG!

While at play on North Fourth-st. near the H. D. Beach home a crowd of young boys discovered a nest of yellow jackets Friday afternoon. They built a fire to smoke the inhabitants of the nest from their home. The yellow jackets left but made a charge on their enemies and before they were exterminated two of the boys had been badly stung. William Shepherd, Ward Elder, Clay Cullison, Walter Wheeler, William Burr and Wm. Simmons located in the fight.

MRS. ARONHALT IS DECLARED INSANE

On the affidavit filed in probate court Friday evening by her son E. C. Aronhalt Mrs. Lydia Aronhalt was declared Friday evening and was adjudged insane by Judge Ashman. She was committed to the Macdonell State hospital for the insane. She was taken there Saturday morning.
